Julio Garcés Teuber

Project Manager & Senior Web Developer

juliogarces@gmail.com

📄 Resume

I have worked for the past 10 years performing analysis, design, implementation and deployment and maintenance of web applications.

I have served in various roles according to the needs of the team. Mainly my tasks have been Developer, Technical Leader, Analyst, Project Manager and DevOps. I've also played administrative tasks (including sales, billing and collections), Testing, Users Support, System and Network Administration among others. A real Swiss Army knife!

I have years of experience developing Startups in diverse areas such as health, communication, finance, logistics and social action, in which I participated and advised from idea development to implementation and going live in projects like Leannec (www.leannec.com.ar) BigBox (www.bigbox.com.ar) BigDeal (www.bigdeal.com.ar) and Turistica Online (www.turisticaonline.com) among others.

I am a proactive goal-oriented person with excellent skills to identify opportunities for improvement, interpret user needs and translate them into tasks to a technology team.

I have participated and led web development using various languages and technologies, from Java, PHP, MySQL, SLQ Server, PostgreSQL, CSS, HTML, XML, JSON, UML and jQuery to Bash Scripting, Apache Nutch, Hadoop, Sphinx, Tomcat, OfBiz and Bitcoin.

I have also developed sites using Wordpress, Joomla, Concrete5 and various frameworks like CodeIgniter, Symfony and CakePHP. Integration with payment methods (Paypal, MercadoPago, Decidir, BitPay and Dineromail) Web Services (ANMAT and Third-Party) and APIs (Blockchain, SendGrid, GMaps among others). OfBiz based eCommerce, osCommerce, Magento and custom developed. Wordpress Themes, Plugins and Widgets. Development of Web Services and APIs. Maintenance of applications and servers on AWS, Rackspace, DreamHost, GoDaddy and Hostgator.
